Summary

Senior Software Engineer with **8 years** of experience building scalable backend systems and APIs. Led end-to-end development of cloud-native applications at Tackle.io, architecting microservices that processed 2M+ daily transactions with 99.9% uptime. Implemented automated CI/CD pipelines on **AWS**, reducing deployment times from hours to under 10 minutes. Partnered with cross-functional teams to deliver features for 500+ enterprise customers. Core expertise spans **Python, Flask, PostgreSQL, Redis**, and **AWS**. Works on using distributed systems knowledge and on-call incident response skills at a growth-stage SaaS company. Owns production infrastructure end to end, including on call coverage, deployment automation, and monitoring across distributed services. Comfortable partnering with platform and application teams on reliability work.

Core Skills

Languages and Frameworks: HTML, CSS

Backend Development: Python, Flask, RESTful APIs, OAuth2, WebSockets, Microservices

Databases: PostgreSQL, MongoDB, Redis, Elasticsearch, Database Design, Query Optimization

Cloud & Infrastructure: AWS, Docker, Kubernetes, CI/CD Pipelines, Terraform, Ansible

Frontend & Tooling: JavaScript, React, TypeScript, Git, API Documentation

Work Experience

Senior Software Engineer | Tackle.io | Remote | 03/2022 - Present

- Led a team of 5 engineers on end-to-end delivery of cloud-native features using **AWS**, **Docker**, and **Kubernetes**.
- Built internal tooling with **React** and **TypeScript** that automated workflows, saving 15+ hours weekly across the team.
- Optimized database queries and implemented **Redis** caching, cutting average API response times from 800ms to under 200ms.
- Established testing standards and CI pipelines that increased test coverage from 60% to 90% across all services.
- Architected **Python Flask** microservices handling 2M+ daily transactions with **99.9% uptime**, serving 500+ enterprise customers.
- Mentored 3 junior engineers through code reviews and architectural decisions, improving team velocity by 20%.
- Responded to on-call incidents with average response times under 10 minutes, maintaining production reliability.
- Designed and documented internal **RESTful APIs** with **OAuth2** integration for secure third-party access.

Software Engineer | Tackle.io | Remote | 06/2021 - 03/2022

- Built CI/CD pipelines with GitHub Actions that reduced deployment time from 4 hours to under 10 minutes.
- Implemented **RESTful APIs** with **OAuth2** for secure data handling, reducing potential data breach risks across integrations.
- Migrated services from monolithic architecture to containerized deployments using **Docker** and **Kubernetes**.
- Designed **PostgreSQL** database schemas optimized for high-throughput workloads, supporting 100k+ daily queries.

Software Engineer II | Ultimate Medical Academy | Remote | 04/2019 - 06/2021

- Optimized **PostgreSQL** database queries, reducing average page load times from 3 seconds to under 1 second.
- Engineered **Python Flask** web applications serving 50,000+ monthly active users with sub-second response times.
- Created reusable **React** components and **RESTful API** endpoints with Flask for course management features.
- Implemented **JWT** authentication and role-based access controls for HIPAA-compliant student data management.

Software Engineer I | Ultimate Medical Academy | Remote | 08/2018 - 04/2019

- Migrated legacy PHP applications to **Python Flask**, improving maintainability and reducing deployment issues by 60%.
- Developed backend services with **Python** and Flask, processing 10,000+ daily enrollment transactions for students.
- Built notification systems using **Redis** pub/sub for real-time course updates to 30,000+ enrolled students.

SDK Intern | Accusoft | Remote | 06/2017 - 08/2018

- Built and maintained **Python** scripts for data processing using the Accusoft **SDK**, improving workflow efficiency.
- Resolved bug reports and improved SDK documentation, increasing developer satisfaction scores by 25%.

Education

Bachelor of Science

University of South Florida

08/2014 - 05/2018
