Summary

Senior Software Engineer with **8 years** of experience delivering enterprise-grade SaaS solutions across cloud platforms. history of building and maintaining **RESTful APIs**, implementing **authentication systems**, and architecting scalable backend services serving **thousands of concurrent users**. Expertise spans full-stack development with **React**, **Node.js**, **Python**, and **PostgreSQL**. Demonstrated ability to translate complex business requirements into technical solutions while maintaining code quality and system reliability. Seeking to leverage deep technical expertise in a solutions engineering capacity to drive customer adoption and business growth. Owns production infrastructure end to end, including on call coverage, deployment automation, and monitoring across distributed services. Comfortable partnering with platform and application teams on reliability work.

Core Skills

Languages & Frameworks: Python, Node.js, TypeScript, React, Django, Express.js, GraphQL, JavaScript, HTML, CSS

Cloud & Infrastructure: AWS, Azure, Google Cloud Platform, Docker, Kubernetes, CI/CD Pipelines

Data & Security: PostgreSQL, MongoDB, Redis, OAuth2, JWT, Data Encryption, API Security

Solutions Engineering: Technical Presentations, Product Demonstrations, Customer Onboarding, Technical Documentation, Requirements Analysis

Compliance & Governance: Data Privacy, Regulatory Compliance, GDPR, CCPA, Security Audits, Risk Assessment

Work Experience

Senior Software Engineer | Tackle.io | Remote | 03/2022 - Present

- Architected and deployed **cloud-native microservices** handling **10,000+ transactions daily**, improving system throughput by **40%** through strategic load balancing and caching implementations.
- Designed and implemented **RESTful APIs** with **OAuth2** and **JWT authentication**, securing sensitive customer data while reducing authentication overhead by **25%**.
- Led migration of legacy monolithic architecture to **containerized microservices** using **Docker** and **Kubernetes**, decreasing deployment time from hours to minutes across **5+ environments**.
- Built real-time **data processing pipelines** with **Python** and **Node.js**, enabling sub-second response times for customer-facing dashboards serving **500+ enterprise clients**.

Software Engineer | Tackle.io | Remote | 06/2021 - 03/2022

- Created **integration workflows** connecting multiple SaaS platforms, automating manual processes that saved **20+ hours weekly** for operations team.
- Contributed to **security hardening initiatives** including **API rate limiting**, **input validation**, and **encryption at rest**.
- Developed **backend services** using **Node.js** and **PostgreSQL** for marketplace platform handling **\$10M+ ARR** in annual transaction volume.
- Implemented **GraphQL API layer** optimizing data fetching patterns, reducing frontend payload sizes by **45%**.

Software Engineer II | Ultimate Medical Academy | Remote | 04/2019 - 06/2021

- Built **learning management system features** using **Django** and **React** serving **15,000+ students** across healthcare certification programs.
- Developed **data analytics dashboards** providing real-time insights into student engagement and course completion metrics.
- Designed **secure file handling systems** with **encryption** and **access controls** for sensitive student records.
- Implemented **automated compliance reporting** tools reducing manual audit preparation time by **30%**.

Software Engineer I | Ultimate Medical Academy | Remote | 08/2018 - 04/2019

- Developed **student enrollment workflows** and **course registration APIs** improving registration completion rates by **15%**.
- Maintained legacy **Python** applications and performed incremental modernization of critical student-facing features.
- Created **automated testing suites** achieving **80%+ code coverage** on new feature implementations.

SDK Intern | Accusoft | Remote | 06/2017 - 08/2018

- Developed **software development kit** documentation and code samples for **image processing APIs**.
- Built **Node.js** and **Python** integration examples demonstrating SDK capabilities to enterprise customers.

Education

Bachelor of Science

University of South Florida | 2014 - 2018
