Summary

Senior Software Engineer with **8 years** of experience building scalable cloud applications and AI-powered solutions. Led development of **Python** and **TypeScript** full-stack products at Tackle.io, designing multi-tenant SaaS platforms processing **millions of records** with **AWS, React, and Django**. Developed healthcare education systems at Ultimate Medical Academy using **Vue.js, Node.js, and PostgreSQL**. Created SDK tooling at Accusoft with **C# and .NET** for document processing. Collaborates cross-functionally with product, data, and customer teams. Seeks to build AI agents and data pipelines for healthcare intelligence. Owns production infrastructure end to end, including on call coverage, deployment automation, and monitoring across distributed services. Comfortable partnering with platform and application teams on reliability work.

Core Skills

Languages: Python, TypeScript, JavaScript, C#, SQL, HTML/CSS

Frontend: React, Vue.js, Angular, Django Templates, REST/GraphQL APIs

Backend: Node.js, Django, Flask, .NET Framework, Microservices

Data & Cloud: AWS, PostgreSQL, MySQL, Redis, Docker, Kubernetes, CI/CD

AI & Analytics: LLM Workflows, AI Agents, Data Pipelines, Machine Learning, Analytics Dashboards

Work Experience

Senior Software Engineer | Tackle.io | Remote | 03/2022 - Present

- Designed and deployed multi-tenant SaaS platform using **TypeScript, React, and Django** on **AWS**, supporting **500+ enterprise customers** with 99.9% uptime and sub-second response times.
- Built **AI-powered workflows** and **LLM integrations** to automate data collection and validation processes, reducing manual review cycles by **60%**.
- Implemented **CI/CD pipelines** with **Docker** and **Kubernetes** on **AWS EKS**, cutting deployment times from hours to **15 minutes**.
- Developed **Python** microservices for revenue operations analytics, processing **millions of daily transactions** with **PostgreSQL** and **Redis**.
- Led **5-member** engineering team in migrating monolithic architecture to microservices, improving system scalability and maintainability.
- Created **TypeScript** SDK and API integrations for **Salesforce, HubSpot, and AWS marketplace** partnerships.
- Established RESTful APIs with **OAuth2** authentication, securing sensitive customer data and meeting compliance requirements.
- Optimized **PostgreSQL** queries and database schemas, achieving **40%** performance improvement in reporting dashboards.

Software Engineer | Tackle.io | Remote | 06/2021 - 03/2022

- Developed **Vue.js** frontend components and **Node.js** backend services for marketplace platform serving **200+ SaaS vendors**.
- Integrated third-party APIs including **Stripe**, **Okta**, and **Slack** webhooks for unified customer experience.
- Built data ingestion pipelines with **Python** and **AWS Lambda**, processing **100K+** records daily.
- Implemented automated testing suite achieving **85%** code coverage, reducing production bugs by **30%**.

Software Engineer II | Ultimate Medical Academy | Remote | 04/2019 - 06/2021

- Developed **Python** data analytics dashboard with **PostgreSQL**, providing real-time insights into student performance metrics.
- Built **RESTful APIs** with **Django REST Framework** and **JWT** authentication for mobile applications.
- Architected **Vue.js** and **Django** learning management system serving **15,000+** healthcare students.
- Created automated enrollment workflows reducing administrative overhead by **25%**.

Software Engineer I | Ultimate Medical Academy | Remote | 08/2018 - 04/2019

- Enhanced student portal using **Vue.js** and **Node.js**, improving user engagement by **40%**.
- Developed **Python** scripts for data migration between legacy systems and modern platforms.
- Implemented **CI/CD pipelines** with **Jenkins** and **Docker** for continuous deployment.

SDK Intern | Accusoft | Remote | 06/2017 - 08/2018

- Developed **C#** SDK documentation and code samples for **.NET** developers integrating document processing tools.
- Built sample applications demonstrating barcode recognition and image processing capabilities for enterprise clients.

Education

Bachelor of Science

University of South Florida | 2014 - 2018
