Summary

Senior Software Engineer with **8 years** of experience designing and maintaining full-stack web applications across SaaS, healthcare education, and developer tools domains. Led development of cloud-native microservices on **AWS** including **Lambda** and **EC2** at Tackle.io, supporting a marketplace platform serving 100+ ISV partners. Architected HIPAA-compliant data pipelines and learner management systems for **15,000+ students** at Ultimate Medical Academy. Built and shipped **SDKs** integrated by 200+ enterprise clients at Accusoft. Expert in **Python**, **React**, and **Node.js** with a focus on scalable backend systems and API design. Owns production infrastructure end to end, including on call coverage, deployment automation, and monitoring across distributed services. Comfortable partnering with platform and application teams on reliability work.

Core Skills

Languages & Frameworks: Python, JavaScript, TypeScript, React, Angular, Node.js, Django, Express, HTML, CSS

Cloud&Infrastructure: AWS, Lambda, EC2, S3, RDS, Docker, Kubernetes

Databases: PostgreSQL, MySQL, MongoDB, DynamoDB, Redis

API&Integration: REST APIs, GraphQL, OAuth2, JSONWebTokens, Webhooks

DevOps&Tools: CI/CD, GitHubActions, Jenkins, Terraform, Linux

Experience

Senior Software Engineer

Tackle.io | Remote | 03/2022 - Present

- Designed and deployed serverless **Lambda** functions handling 2M+ daily API requests, reducing infrastructure costs by 40% compared to previous EC2-based architecture.
- Built multi-tenant **RESTful APIs** with **Python** and **Django** enabling **100+ ISV partners** to automate cloud marketplace integrations across AWS, Azure, and GCP.
- Implemented **OAuth2** authentication flow with **JWT** tokens securing all internal and external API endpoints, eliminating unauthorized access vulnerabilities.
- Developed **React** frontend components for partner dashboard used by 500+ enterprise customers, improving user onboarding completion by 25%.
- Architected event-driven messaging system using **SQS** and **SNS** processing 50,000+ webhook events daily with guaranteed delivery and idempotency.
- Led migration of monolithic **Node.js** services to containerized **Docker** containers ran on **Kubernetes**, cutting deployment time from 30 minutes to 5 minutes.

Software Engineer

Tackle.io | Remote | 06/2021 - 03/2022

- Developed **Python** automation scripts for marketplace listing management, reducing manual effort by 15 hours per week for the operations team.
- Created **GraphQL** schema and resolvers for product catalog service, improving frontend data fetching efficiency by 35%.
- Integrated third-party billing APIs with **Stripe** webhooks handling subscription lifecycle events for 200+ enterprise accounts.
- Wrote comprehensive unit and integration tests achieving 85% code coverage across critical payment processing modules.

Software Engineer II

Ultimate Medical Academy | Remote | 04/2019 - 06/2021

- Rebuilt student enrollment system with **React** and **Node.js**, supporting **15,000+ concurrent learners** and reducing page load times from 4 seconds to under 1.5 seconds.
- Architected HIPAA-compliant data pipelines using **Python** and **PostgreSQL** with field-level encryption for protected health information storage.
- Developed **REST APIs** powering mobile app integrations serving 8,000+ monthly active users across iOS and Android platforms.
- Mentored two junior developers through code reviews and pair programming sessions, accelerating their onboarding by 6 weeks.

Software Engineer I

Ultimate Medical Academy | Remote | 08/2018 - 04/2019

- Built interactive course content player with **Angular** and **TypeScript**, increasing student engagement metrics by 30%.
- Implemented automated email notification system using **AWS SES** and **SQS**, delivering 50,000+ targeted messages monthly.
- Optimized **MySQL** database queries for course progress tracking, reducing report generation time from 45 seconds to 8 seconds.

SDK Intern

Accusoft | Remote | 06/2017 - 08/2018

- Developed **JavaScript SDK** wrappers for document imaging REST APIs, simplifying integration for 200+ enterprise clients.
- Created comprehensive API documentation and code samples in **Node.js** and **Python**, reducing support ticket volume by 20%.

Education

Bachelor of Science in Computer Science

University of South Florida

08/2014 - 05/2018
