Summary

Senior Software Engineer with **8 years** of experience building enterprise SaaS platforms and cloud deployment solutions. Led development of multi-tenant billing systems and marketplace integrations at **Tackle.io**, serving ISV partners across cloud platforms. Designed secure course delivery infrastructure and student management systems at **Ultimate Medical Academy** serving 50,000+ enrolled students. Built SDK automation tools and image processing libraries at **Accusoft**. Works on **Python, AWS, Docker, Kubernetes**, and **CI/CD pipelines**. Seeking to bring deployment automation and cloud infrastructure expertise to Varonis as a Cloud Deployment Specialist.

Core Skills

Cloud & Infrastructure: AWS, Docker, Kubernetes, Helm, Terraform, CI/CD Pipelines

Languages & Frameworks: Python, JavaScript, TypeScript, Node.js, FastAPI, Django, HTML, CSS

Databases & Storage: PostgreSQL, Redis, MongoDB, S3, RDS

Security & Authentication: OAuth2, JWT, AWS IAM, Role-Based Access Control

Tools & Practices: Git, GitHub Actions, Jenkins, Datadog, CloudWatch, Agile/Scrum

Work Experience

Senior Software Engineer | Tackle.io | 03/2022 - Present

- Deployed and managed **Kubernetes** clusters on **AWS EKS** using **Terraform** and **Helm**, reducing deployment time from 45 minutes to 8 minutes.
- Implemented monitoring and alerting with **Datadog** and **CloudWatch**, reducing mean time to resolution for production incidents to under 15 minutes.
- Architected multi-tenant billing platform processing \$2M+ monthly transactions using **Python**, **PostgreSQL**, and **Stripe** integrations for cloud marketplace billing.
- Led team of 4 engineers on marketplace listing automation project, reducing manual onboarding time by 70% for new cloud partners.
- Developed **RESTful APIs** and webhooks for **Salesforce**, **Azure**, and **AWS** marketplace integrations using **FastAPI**.
- Built **CI/CD pipelines** with **GitHub Actions** and **Docker** containers, achieving 99.9% uptime across 30+ production microservices.
- Optimized database queries and implemented **Redis** caching layer, achieving 3x improvement in API response times.
- Designed and implemented **OAuth2** authentication system with **JWT** tokens for 50+ ISV partner integrations.

Software Engineer | Tackle.io | 06/2021 - 03/2022

- Created automated testing suite with **Python pytest** and **Selenium**, increasing test coverage from 45% to 85%.
- Collaborated with DevOps to containerize applications with **Docker** and orchestrate deployments on **AWS ECS**.
- Developed customer-facing dashboard using **React** and **TypeScript** for real-time usage tracking and billing management.

- Built event-driven architecture using **AWS SQS** and **Lambda** for asynchronous marketplace notification processing.

Software Engineer II | Ultimate Medical Academy | 04/2019 - 06/2021

- Designed and built course delivery platform serving 50,000+ students using **Python Django**, **PostgreSQL**, and **AWS** infrastructure.
- Led HIPAA compliance initiative, implementing encryption at rest and **AWS IAM** policies for protected health information handling.
- Implemented **CI/CD pipelines** with **Jenkins** and **Docker**, reducing deployment frequency from weekly to daily releases.
- Developed student assessment and certification system with secure PDF generation and **S3** storage integration.

Software Engineer I | Ultimate Medical Academy | 08/2018 - 04/2019

- Built student enrollment and onboarding system using **Python** and **MongoDB**, supporting 5,000+ monthly registrations.
- Automated email communication workflows using **AWS SES** and serverless functions, reducing manual outreach by 60%.
- Created internal admin portal with **React** and **Node.js** for student record management and reporting.

SDK Intern | Accusoft | 06/2017 - 08/2018

- Developed **Python SDK** wrappers for image processing APIs, enabling easier integration for 200+ enterprise clients.
- Created comprehensive documentation and code examples, reducing client support tickets by 40%.

Education

Bachelor of Science in Computer Science

University of South Florida

08/2014 - 05/2018
