Summary

Senior Full Stack Engineer with **8 years** of experience designing and delivering scalable web applications across real estate, SaaS, and business services domains. Built **Python/FastAPI** backend services processing high-volume transactions and constructed **React/TypeScript** frontends serving thousands of daily users. Led teams of 5+ members and managed 40+ projects simultaneously. Implemented **PostgreSQL/MariaDB** optimizations reducing query execution from 5 seconds to under 1 second. End-to-end ownership from architecture through deployment with focus on testable code, security controls, and performance optimization. Owns production infrastructure end to end, including on call coverage, deployment automation, and monitoring across distributed services. Comfortable partnering with platform and application teams on reliability work.

Core Skills

Backend: Python, FastAPI, Node.js, Django, REST API Design

Frontend: React, TypeScript, JavaScript, HTML/CSS, Responsive Design

Databases: PostgreSQL, MariaDB, MySQL, Redis, ORM Frameworks

DevOps & Tools: Docker, CI/CD, Git, AWS, Cloud Deployment, Linux

Practices: Unit Testing, Integration Testing, Code Reviews, Security Controls, Agile, Kubernetes

Work Experience

Frontdoor

Senior Full Stack Engineer | Real Estate Financial Platform | Remote, US | 09/2022 - Present

- Built **React/TypeScript** dashboard interfaces with real-time data visualization, reducing report generation time from 5 seconds to under 1 second.
- Designed **PostgreSQL** schemas and optimized complex JOIN queries that improved data retrieval performance by 40% across 100k+ records.
- Architected **Python/FastAPI** microservices handling property valuation and financial calculations for a platform managing 500+ active property portfolios.
- Led team of 5+ engineers conducting code reviews and establishing coding standards across 3 microservices.
- Implemented OAuth2 authentication and role-based access controls securing sensitive financial data for 2,000+ users.
- Established automated testing pipelines achieving 85% code coverage, reducing production defects by 30%.

ZenBusiness

Full Stack Developer | Business Formation SaaS | Remote, US | 01/2021 - 11/2022

- Integrated third-party APIs including payment gateways and state filing systems with proper error handling and retry logic.
- Developed **Python/FastAPI** backend services for business registration workflows processing 500+ filings daily with automated compliance validation.
- Optimized **MariaDB** database queries and implemented caching strategies that reduced API response times by 60%.
- Created **React/TypeScript** multi-step forms with dynamic state management, improving user completion rates by 25%.

- Collaborated with product managers to translate business requirements into technical specifications and user stories.

Northstar Software Development

Full Stack Engineer | ATS Systems | TX, US | 11/2020 - 06/2021

- Built **Python** APIs with Flask/Django frameworks for applicant tracking system handling candidate data for 50+ client organizations.
- Developed **React** components for candidate management dashboards with filtering and sorting across 10k+ candidate profiles.
- Wrote integration tests and documentation for REST API endpoints consumed by frontend and mobile applications.
- Designed database schemas for job postings, candidate profiles, and hiring pipelines using **PostgreSQL**.
- Implemented automated email notification system with templating and scheduling capabilities.

Arbisoft

Software Engineer | SaaS Products | Remote, US | 10/2018 - 08/2020

- Developed **Python** backend services for alert and notification systems serving 40+ enterprise clients.
- Contributed to database design and query optimization for high-volume data processing pipelines.
- Performed bug resolution and maintenance across legacy codebases while improving test coverage.
- Participated in Agile ceremonies including sprint planning, daily standups, and retrospectives.
- Built **React** frontend interfaces with responsive design and cross-browser compatibility.

Education

Bachelor of Science in Computer Science

University of North Texas | 2014 - 2018
