Summary

Staff-level engineer with **17+ years** building and operating large-scale distributed systems at Google, YouTube, and Microsoft. Strong background in backend infrastructure, data-intensive services, and cloud platforms. Comfortable working across the full engineering stack and communicating technical trade-offs to varied audiences. Looking to bring that depth into a customer-facing solutions engineering role where technical credibility and clear explanation matter.

Core Skills

Languages: Java, Python, Go, C++, SQL

Infrastructure: Distributed systems, microservices, Kubernetes, Docker

Cloud: AWS, GCP, Azure

Data: SQL and NoSQL databases, stream processing, data pipeline design

Privacy and Compliance: Working knowledge of data governance, privacy regulations, and compliance workflows

Work Experience

Staff Software Engineer | YouTube | Remote | 02/2025 - Present

- [NEED DETAILS] Describe the systems worked on at YouTube, team scope, and any customer-facing or cross-functional dimensions of the role.

Staff Software Engineer | Whatnot | Hybrid | 05/2024 - 02/2025

- [NEED DETAILS] What systems were built or maintained? What was the scale? Any collaboration with product or customer teams?

Staff Software Engineer / Manager | Google | Hybrid | 03/2015 - 04/2024

- Led engineering work on large-scale distributed systems serving Google-scale traffic. [NEED DETAILS] What systems? What team?
- Managed a team of engineers [NEED DETAILS: team size]. Set technical direction, drove roadmap priorities, and handled performance and growth conversations. [NEED DETAILS] What was the team responsible for?
- [NEED DETAILS] Add specific technical accomplishments, challenges solved, or measurable outcomes.

Software Engineer | Google | Remote | 02/2011 - 02/2015

- Designed and shipped backend services handling high-throughput workloads. [NEED DETAILS] What did the work involve? What was the impact?
- Worked closely with product managers, other engineering teams, and QA to deliver features end-to-end.

Software Design Engineer II | Microsoft | Remote | 10/2007 - 12/2011

- [NEED DETAILS] What product or service area? Desktop, cloud, enterprise tooling?
- Participated in full development lifecycle from design through release.

Software Design Engineer Intern | Microsoft | Remote | 06/2006 - 08/2006

- Summer internship. [NEED DETAILS] If any project or team is worth naming, add it here.
